

Packing Success in Film worldwide

NORDENIA HUNGARY Kft.

AN ESTABLISHED PARTNER IN CENTRAL AND EASTERN EUROPE

When it comes to high-quality flexible packaging, NORDENIA HUNGARY is a reliable partner of the consumer goods industry in all of Central and

Eastern Europe. Numerous manufacturers from different industries, including the food industry, rely on the high-quality products from Szada.

NORDENIA HUNGARY is located in
 ▼ Szada, 25 kilometers from Budapest.

CORE COMPETENCIES

- Flexible packaging films of superior process quality
- Excellent print quality and the best barrier properties
- More than a decade of experience in Central and Eastern Europe's markets
- Developing individual solutions based on on-site consulting

A LEADER IN FLEXIBLE PACKAGING

Blown film extrusion is one of the competencies of NORDENIA HUNGARY. ▼

Today, NORDENIA HUNGARY is one of the leaders on the flexible packaging market in Hungary. In Szada, which lies 25 kilometers northeast of the capital, Budapest, the company produces films and packaging for food and beverages as well as for pet food, detergents and cleansing products, and hygiene products. The packaging's special characteristics are the excellent barrier properties and the

extraordinary print quality. The products are manufactured in accordance with internationally recognized standards. NORDENIA HUNGARY is certified pursuant to ISO 9001:2000 and the Group-wide World Class Production (WCP) optimizing program, both of which are quality standards, the ISO 14001 environmental standard, and the Hazard Analysis Critical Control Point (HACCP) hygiene standard.

THE ADVANTAGE OF BEING CLOSE TO THE CUSTOMER

A local site and high flexibility provide the guaranty that NORDENIA HUNGARY's customers will always be satisfied. This applies to the cooperation with regional Hungarian partners as well as with multinational consumer goods manufacturers. Thanks to the experience our employees have acquired in over a decade, they are exceedingly familiar with the Central and

Eastern Europe markets. The factory in Szada, which was founded in 1993, was NORDENIA's first Eastern European site. NORDENIA is a partner who develops innovative solutions of perfect quality by using the transfer of know-how within the Group. Thus, we can ensure that the individual demands of each customer are satisfied.

◀ Highest technical standards characterise the production processes.

PERFECT PROTECTION, PERFECT PRINT

NORDENIA HUNGARY produces printed and unprinted rollstock, barrier films, and film composites as well as pre-made bags. The state-of-the-art machines allow to add easy-to-close properties or special barriers to the material. The film products offer perfect protection against moisture or aroma loss since they are produced with up to three layers in the mono- and coextrusion process and up to five layers in the lamination process. In

addition, they stand out due to their superior printability. The flexographic printing method can print up to eight colors and is able to apply cold seal upon request. NORDENIA HUNGARY's range of products also includes high-quality packaging for food and pet food as well as detergent and cleansing agents. Thanks to the perfect print quality, the goods are ideally suited for presentation at the Point of Sales.

NORDENIA has developed films that are reduced in thickness and at the same time allow accelerated packing.

NORDENIA packaging is distinguished by brilliant color-printing.

◀ The film products are suited for a lot of several uses.

RESEARCH AND DEVELOPMENT

Innovativeness is deeply rooted within NORDENIA's company culture. As a pioneer who invests in innovations, NORDENIA develops market-oriented, and value-adding products and processes. The strategic product and process development as well as product optimization are

concentrated in NORDENIATECHNOLOGIES GmbH, the Group's development company. In cooperation with its customers and suppliers, NORDENIA works for the future of film packaging all over the world. A high utility value and innovative functions are the top priority.

◀ One of the strengths of NORDENIA is the constant enhancement of successful products.

NORDENIA WORLDWIDE

NORDENIA INTERNATIONAL AG is an international manufacturer of flexible packaging, technical films, and product components. The business is divided into the Consumer and Industrial divisions. The NORDENIA INTERNATIONAL AG management headquarters are located in Greven, Germany. Approximately 3,000 employees work for the films company. The company's

CONSUMER DIVISION

PRODUCTS

- Pre-made packaging
- Automatic packaging films
- Film labels

AS CUSTOMIZED VERSIONS WITH

- Easy-opening devices
- Reclosable systems
- Barrier properties

MANUFACTURED FROM

- Mono-extruded or co-extruded plastic films
- Two- and multilayer composites
- Material composites from films with aluminum and paper

PRINTED USING

- Flexographic or gravure printing method

MARKET SEGMENTS

- Food and beverages
- Hygiene
- Detergents and cleansing agents
- Beauty and healthcare
- Pet care and garden products

INDUSTRIAL DIVISION

PRODUCTS

- Lamination and labeling films
- Technical films
- Tube-laminate films
- Product components
 - as elastic diaper components
 - as feminine hygiene products
 - for closure systems
- Surface protection films in
 - permanent use as lacquer substitutes
 - temporary use
- Flexible bulk containers
- Film liners for large-volume transport and storage containers
- Films for transport and storage protection
- Pre-made bag packaging and automatic packaging, such as FFS (Form, Fill & Seal), bin valve bag, and block bag
- Vehicle protection films for body shops
- Films for the automotive industry
- Decorative films

MANUFACTURED FROM

- Mono-extruded or co-extruded plastic films
- Two- and multilayer composites
- Film and nonwoven film composites
- Material composites from films with aluminum and paper
- Fabric woven material

PRINTED USING

- Flexographic or gravure printing method

MARKET SEGMENTS

- Packaging industry
- Label industry
- Hygiene industry
- Steel, metal, and plastics industries
- Automotive and automotive supplier industries
- Chemical and pharmaceutical industries
- Construction industry
- Food industry
- Pet food industry
- Gardening and agricultural industries
